Notes to Financial Statements

May 31, 2019

1. NATURE OF ORGANIZATION:

Church Ministries International, Inc. (CMI) is a Texas nonprofit corporation exempt from federal income tax under Internal Revenue Code Section 501(c)(3), except on unrelated business income, if any. Contributions to CMI are tax deductible within the limitations prescribed by the Code. CMI has been classified as a publicly supported organization which is not a private foundation under Section 509(a) of the Code.

CMI's mission is to help reach nations for Christ by serving as a catalyst for urban churches toward strategic planning, partnerships, leadership training, and ministries that address the goal of evangelizing and discipling entire countries.

CMI's goals are:

- To motivate Christians to focus their time, resources, and prayer towards such efforts.
- To inform and focus attention toward such programs within existing churches and missionary organizations.
- To assist these missionary organizations in establishing, funding, and directing such programs.
- To provide initial seed funding to participating churches for the purchase of strategic properties and construction of essential facilities that accelerate church development and multiplication.

CMI receives support from individuals, churches, and foundations to fund its ministries. Workers raise support for their ministry based on ministry costs, including salary, housing, benefits, travel, ministry expenses, and an administrative assessment to underwrite administration costs.

CMI serves as a catalyst with the churches, donors, and mission organizations with whom it works. In this catalytic role, CMI promotes project funding through channels other than its own. As such, the income reflected in CMI's financial statements does not reflect the total project resources generated or the full impact of its ministry.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The financial statements of CMI have been prepared on the accrual basis of accounting. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts and disclosures of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

Cash is considered to be cash held in checking and a money market account not held for investment purposes. These accounts may, at times, exceed federally insured limits. CMI believes it is not exposed to any significant credit risk on cash and cash equivalents. As of May 31, 2019, CMI did not have cash balances that exceeded federally insured limits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

INVESTMENTS

During the year ended May 31, 2019, CMI moved a large portion of their investments to Texas Presbyterian Foundation (TPF). Investments held at TPF consist of money market funds, shares in the balanced common fund, and shares in the fixed income common fund. The TPF Balanced Fund holds interests in the TPF Large Cap Equity Fund, the TPF Small Cap Equity Fund, the TPF International Equity Fund, the TPF Fixed Income Fund, and the TPF Money Market Fund, in proportions allocated as determined from time to time by the Investment Committee of TPF's board of trustees. The Fixed Income Fund is an actively managed diversified bond portfolio consisting principally of high quality, investment-grade corporate, mortgage, asset-backed and limited high yield securities.

The core value fund is held with Fidelity, and is reported at net asset value based on information from underlying fund managers. Distributions from the core value fund are paid out only when the partners approve, are limited to 20% at a time, can be no more frequent than quarterly, and require a written request 65 days ahead of the end of the calendar quarter. No additional capital calls are allowed. Fund managers provide updated estimates monthly for valuation, but the final value will only be available upon distribution.

CLASSES OF NET ASSETS

The financial statements report amounts by class of net assets:

Net assets without donor restrictions are those currently available for use in the international ministries of CMI under the direction of the board and those resources invested in furniture and equipment.

Net assets with donor restrictions are those stipulated by donors for specific operating purposes, including projects and support of staff ministries or for the acquisition of property and equipment, or those with time restrictions not currently available for use until commitments regarding their use have been fulfilled. It also includes assets which are contributed with donor restrictions requiring that they be held in perpetuity.

SUPPORT, REVENUE, AND EXPENSES

Revenue is recognized when earned and support when contributions are made, which may be when cash is received, unconditional promises are made, or ownership of other assets is transferred to CMI.

CMI reports gifts of cash and other assets as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Restricted contributions are subject to assessments ranging from 15% to 20%, which are used for general and administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued:

SUPPORT, REVENUE, AND EXPENSES, continued

CMI reports gifts of land, buildings, and equipment as support without donor restrictions unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as support with donor restrictions. CMI reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Expenses are reported when costs are incurred in accordance with the accrual basis of accounting.

ALLOCATION OF EXPENSES

The costs of providing the program services and supporting activities of CMI have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the program and supporting activities benefited. Salaries and benefits are allocated based on estimates of time and effort, and other expenses are allocated based on estimates of time spent for each program.

NEW ACCOUNTING PRONOUNCEMENT

In 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities*. CMI adopted the provisions of this new standard during the year ended May 31, 2019. In addition to changes in terminology used to describe categories of net assets throughout the financial statements, new disclosures have been added regarding liquidity and the availability of resources (Note 3), and disclosures related to the functional allocation of expenses were expanded (Note 2).

3. LIQUIDITY AND FUNDS AVAILABLE:

	<hr/>
	\$ 2,204,755
	<hr/> <hr/>

5. FAIR VALUE MEASUREMENTS:

Cash and cash equivalents consists of cash and funds held in a money market fund. The money market fund is reported at cost plus accrued interest, which is level 1 on the fair value hierarchy. Investments in the common funds and core value fund are reported at net asset value.

The investment objective of the balanced common fund is to produce a total rate of return from a blend of equity and fixed income securities, which provides a stable, predictable and growing source of income to participating institutions to support current programs while preserving the inflation-adjusted purchasing power of the principal over time.

The investment objective of the fixed income common fund is to produce a total rate of return, net of expenses, which exceeds the Barclays Aggregate Index and is ranked above the median performance level when compared to a universe of other comparable funds.

The investment objective of the core value fund is to provide capital appreciation consistent with the return characteristic of the alternative investment portfolios of larger institutions.

7. COMMITMENTS:

CMI is obligated under an operating lease for its office facilities under a 60-month lease commencing November 2014, at a monthly rate of \$2,344 through December 2018, and increased to \$2,656 in January 2019, until maturity. Future minimum lease payments are as follows:

Year Ending May 31,

CHURCH MINISTRIES INTERNATIONAL, INC.

Notes to Financial Statements

May 31, 2019

9. ENDOWMENT FUNDS:

CMI's endowments consist of one individual fund established to support the general fund. As required by the accounting principles generally accepted in the United States, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The management of CMI has interpreted the Texas Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift, as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, CMI classifies as net assets with donor restrictions restricted in perpetuity (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in net assets with donor restrictions in perpetuity is classified as net assets without donor restrictions due to the terms of the endowment that do not restrict the income.

As of May 31, 2019, CMI's endowment fund has a balance of \$4,323. Changes in endowment net assets are immediately released from restriction because the endowment agreement does not impose a purpose restriction on these funds.

Funds with deficiencies: From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires CMI to retain as a fund of perpetual duration. There were no deficiencies as of May 31, 2019.

Other disclosures required by the *Reporting Endowment Funds* topic of the Financial Accounting Standards Board Accounting Standards Codification have not been included in these financial statements due to immateriality.

10. DONOR CONCENTRATION:

For the year ended May 31, 2019, approximately 16% of CMI's contributions were provided by two donors. The implications of this concentration are recognized by management and the board.

11. RELATED PARTY TRANSACTIONS:

During the year ended May 31, 2019, CMI received approximately \$21,000 of contributions from board members and members of management.

12. SUBSEQUENT EVENTS:

Subsequent events have been evaluated through October 16, 2019, which represents the date the financial statements were available to be issued. Subsequent events after that date have not been evaluated.
